singapore is small a complex country full of contradictions inconsistencies and idiosyncrasies often held up as a model nation we sometimes forget that singapore is seen differently by different people with a decade of activism and journalism experience kirsten han reveals various aspects of her home country that don't follow what many of us know as the conventional singapore story the singapore i recognise is kirsten's reckoning with civil society's experiences of singapore perspectives that are often unheard or fall through the cracks through researched interviews and heartfelt reflections kirsten tells us how parts of singapore are already moving towards communal care solidarity empowerment and hope this is a resonant portrayal of home in the island city state

in america more money is spent from all sources on k-12 education than on the u.s. department of defense why then are so many children suffering what amounts to educational malpractice why are they crippled for life with a substandard education and a life altering vision of themselves as incapable betrayed is a passionate well researched and frank accounting of how a failing public education system continues to be forced on teachers and students despite its nearly complete lack of supporting research or successful student outcomes betrayed roots out the self-styled stakeholders whose personal professional and financial interests are served by this failing system it sympathizes with teachers many of whom aren't allowed to do their jobs yet are constantly threatened with removal for ineffectiveness or insubordination betrayed is an expose but it's also a beacon of commonsense and hope through the square of effective learning betrayed offers practical methods for teachers parents advocates and legislators to stand up against this broken system to effect positive change and to ensure a good quality education for all of our children

based on the primary mathematics series from singapore designed to equip students with a strong foundation in mathematics and critical thinking skills the program offers an integrated solution to different learning needs in the classroom

in clear and concise language veteran education writer robert rothman identifies nine instructional shifts encouraged by the new common core state standards and provides examples of how teachers and school districts are overcoming challenges in implementation he presents the research and rationale behind each change and provides examples of teachers making the shifts as well as sample test questions that could be used to gauge student progress in the future rothman also addresses major challenges that are emerging as districts and schools move to implement the standards and highlights the ways leading school districts are working to overcome them fewer clearer higher the mantra adopted by the writers of the common core to emphasize the difference between existing state standards and the new ones needed to truly prepare all students for college or careers is an indispensable guide for educators and anyone else seeking a better understanding of this major new development in education policy
