heatherwick is a leonardo da vinci of our times sir terence conran still just two decades into his career british designer thomas heatherwick has been heralded as one of the most original creative talents for many decades he has produced everything from sculptural chairs forged from the world s largest aluminium extruder to a bridge that rolls open and closed and an exuberant seed bank hairy with fibre optic lights the award winning uk pavilion at the 2010 shanghai expo this book is the first to present an exhaustive survey of his studio s output to date over 140 projects long in development it offers a highly personal in depth and behind the scenes look at all aspects of heatherwick s creative design and manufacturing processes projects are organized chronologically and bookended by an introduction setting out the studio s philosophy and a project credits section each project is fully illustrated and accompanied by a text explaining in heatherwick s own words the particular design challenge it posed and the creative and practical processes used to address it

featuring sixteen new projects and fresh photography this updated and revised volume remains the definitive publication on the internationally acclaimed designer thomas heatherwick

this book brings together cutting edge research from leading international scholars to explore the geographies of making and craft it traces the geographies of making practices from the body to the workshop and studio to the wider socio cultural economic political

institutional and historical contexts in doing so it considers how these geographies of making are in and of themselves part of the making of geographies as such contributions examine how making bodies and their intersections with matter come to shape subjects create communities evolve knowledge and make worlds this book offers a forum to consider future directions for the field of geographies of making craft and creativity it will be of great interest to creative and cultural geographers as well as those studying the arts culture and sociology

creative thinking made easy being creative can be tough and trying to come up with great ideas under pressure can leave the great ideas under wraps creative thinking for dummies helps you apply creative thinking techniques to everything you touch whether it s that novel you have inside you or the new business idea you ve had that will make you the next hot entrepreneur or anything in between creative thinking for dummies is a practical hands on guide packed with techniques and examples of different ways to think creatively it covers a range of techniques including brainstorming lateral thinking mind mapping synectics drawing and doodling your way to great ideas meditation and visualization word and language games and divergent thinking see the world in a different way and realise that you are surrounded by creative inspiration brainstorm new ideas successfully and try out some lateral thinking exercises open your mind to a new way of thinking and nail down those great ideas discover creative thinking techniques using games words drawings and storytelling let creativity enhance all aspects of your life whether developing your personal skills becoming more professionally effective or using creative thinking techniques to help your children develop their creative minds you ll soon discover that everybody including you has a wealth of creative potential within you just need to tap into it

as a second attempt after architecture beyond the anthropocene already available online this book is presenting a new set of reflections in a time at a pivot point 62 young architects to be are facing their own future and roles in a world experiencing massive changes on all levels climatic economic political cultural social the confusions the wonderings the hopes and maybe above all the questions amass to navigate in this unknown and volatile territory a series of speculating lectures on architectures varying foundations and possible creative paths were offered along with a list of books presented at the end of this book

learning from failure in the design process shows you that design work builds on lessons learned from failures to help you relax your fear of making mistakes so that you re not paralyzed when faced with a task outside of your comfort zone working hands on with building materials such as concrete sheet metal and fabric you will understand behaviors processes methods of assembly and ways to evaluate your failures to achieve positive results through material and assembly strategies of stretching casting carving and stacking this book uncovers the issues problems and failures confronted in student material experiments and examines built projects that addressed these issues with innovative and intelligent strategies highlighting numerous professional practice case studies with over 250 color images this book will be ideal for students interested in materials and methods and students of architecture in design studios

this book argues for the value of the material prototype as a critical site of design innovation through a series of design and architectural case studies illustrated by physical objects such as chairs columns and building façades these full scale material investigations reflect their designers deep knowledge of material manufacturing and geometry the projects do not simply express how they are made rather their designers leverage the capacities of metal forming to exert distinctive influence on the object s expression and performance embracing manufacturing processes as instruments of material innovation organized in two parts part one presents the material framework informing work by arad newson heatherwick future systems foster oma rex hadid and others seven metal forming techniques including press forming press brake forming spinning panel beating casting extruding and superplastic forming are presented alongside work implemented with these processes part two presents original design research thermoformed aluminum façade systems ask critical questions of the part tessellation the mold tooling the seam and the finish post processing illustrating the potential of design inquiry when techniques of material production alter techniques of design aluminum is redefined inheriting a plasticity which alters the intrinsic qualities of its raw production for students and professionals in the fields of industrial design and architecture this book presents an optimistic role for material in the design process

a compelling account of how incorporating play into work can help us overcome the uncertainty and turbulence that surrounds work how can we learn to deal with uncertainty at work the answer as dodgson and gann eloquently portray in this pathfinding book is to learn from the adaptive behaviors of entrepreneurs play the authors show is a crucial component of this it encourages exploration experimentation and curiosity while it also challenges established practices and orthodoxies it facilitates change in people and organizations drawing on in depth interviews with entrepreneurs and innovators this book explains why we should incorporate play into work what play looks like and how to encourage playfulness in individuals and organizations dodgson and gann identify four key behaviors that endorse encourage and guide play grace craft fortitude and ambition and provide a blueprint for an alternative way of working that fosters resilience and encourages innovation and growth in difficult times

a survey of the design landscape guiding the reader through the array of movements styles trends identifying leading designers as well as future design classics this work places the modern scene in a historic framework explores cultural economic forces shaping design

creative island explores the extraordinary range and quality of recent british design including work from all disciplines it describes over 100 projects from the last few years and includes biographical details of each of the project designers

new spiritual architecture looks at ways in which contemporary architects are approaching religious or meditative space the book focuses on churches chapels temples synagogues and mosques that have been built in the last few years and that represent a late twentieth early twenty first century aesthetic these buildings demonstrate how new ideas and developments in urban domestic and public architecture are being used to inform design

that is intended for inspiration worship or meditation the text discusses the ways in which architects manipulate light and space and considers the placement of these buildings in their surroundings following a brief introduction the book explores the following five themes new traditions interventions retreats grand icons and modest magnificence it includes 200 full color illustrations and 100 line drawings book jacket

what does it mean to be green this book a follow up to the cult hit xs is a celebration of idiosyncratic small buildings and asks what we mean by building green and how doing so enriches the world around us the projects here are not only about building well but about seeing well they embrace the spectrum of small structures from traditional nature huts and ornamental follies to the charmingly surreal buildings that look after people can also be the ones that look after the earth
